

Meng Wu | PhD Candidate
639 E Alpine Trail, Bloomington, IN, 47401
(513) 593-4686, wum5@indiana.edu

EDUCATION

Ph.D. in Evolutionary Genetics (minor: Bioinformatics), 2014~, Indiana Univ., USA (GPA 4.0)
M.S. in Biology, 2012~2014, Miami University, USA (GPA 3.9)
B.S. in Plant Sciences, 2008~2012, Sichuan Agricultural University, China (GPA 3.5)

RESEARCH PROJECTS

- **Genome assembly (03/2017~01/2018)** – assembled the genome of *Jaltomata sinuosa* using PacBio and Illumina reads, annotated repeats and gene models, conducted comparative analyses (gene family dynamics and gene molecular evolution) with other sequenced Solanaceae species [[Project Scripts](#)]
- **Phylogenomic study (06/2015~02/2017)** – assembled transcriptomes of 14 *Jaltomata* species (closely related plant taxon of tomato), generated phylogenetic relationship, inferred trait evolution, and identify candidate genes associated with morphological trait diversification [[Project Scripts](#)]
- **TE expression (08/2014~05/2015)** – quantified transcriptional activity of transposable elements in wild tomatoes using RNA-seq, and investigated their expression relationship with surrounding genes
- **Origin of red-fleshed papaya (06/2013~08/2014)** – sequenced the lycopene beta cyclase locus and its up/down-stream flanking regions in wild populations of red/yellow-fleshed papaya and cultivars, performed population genetic analyses to reveal the origin of allele in red-fleshed papaya
- **Sex chromosome evolution (08/2012~08/2013)** – compared the coding sequences of X/Y-linked genes in papaya sex chromosomes, and performed population genetic analyses on several sequenced X-Y genes pairs to suggest the degradation evolution of Y-linked genes
- **Wheat-rye allopolyploids (05/2010~06/2012)** – investigated genome compositions of the synthetic wheat-rye allopolyploids using molecular (PCR and sequencing) and cytogenetic approach (FISH and GISH)

COMPUTATIONAL SKILLS

- Four-year experience in Python and R, including using related packages or libraries such as biopython, bioconductor, SciPy, NumPy, pandas, skit-learn, Matplotlib
- Proficiency in shell scripting in Linux environment and pipeline development
- Ability to use relational database management system, such as SQLite
- Familiar with various bioinformatics software and pipelines, including:
 - 1) Reads processing and mapping: Trimmomatic, Scythe, FastQC, BWA, STAR
 - 2) Variant calling: SAMtools, BEDtools, VCFtools, GATK
 - 3) Gene expression analyses: FeatureCounts, EdgeR, DESeq2
 - 4) Sequence clustering and alignment: MCL, CD-HIT, PRANK, MAFFT, MUSCLE
 - 5) Genome/transcriptome assembly: Trinity, MaSuRCA, DBG2OLC, BUSCO
 - 6) Functional annotations: MAKER, AHRD, RepeatMasker, LTR_harvest
 - 7) Comparative genetic analyses: PAML, RAxML, CAFÉ, MEGA, DnaSP

- Tang Z*, **Wu M***, Zhang H, Yan B, Tan F, Zhang H, Fu S, Ren Z. 2012. Loss of parental coding sequences in early generation of wheat-rye allopolyploid. *International Journal of Plant Sciences* 173:1-6 (*equal contribution).

CONFERENCES/WORKSHOPS

- “The Plant and Animal Genome XXVI Conference”, San Diego, 01/2018
Sequencing and *de novo* assembly of the genome of *Jaltomata sinuosa*, a species in the sister clade to *Solanum* and *Capsicum*. [Poster]
- “The Annual Meeting of the Society for Molecular Biology and Evolution”, Austin, 07/2017
Inferring phenotypic trait evolution and contributing loci in a recent radiation with widespread phylogenetic discordance. [Poster]
- “The Midwest Ecology and Evolution Conference”, Dayton, 03/2014
The evolutionary tempo of sex chromosome degradation in *Carica papaya*. [Talk]
- “The Annual Meeting of the Botanical Society of America”, New Orleans, 07/2013
The investigation on protein evolution of Y chromosome in *Carica papaya*. [Poster]

AWARDS AND HONORS

- “Heimsch Award”, Outstanding Graduate Student, \$900, Dept. of Biology, Miami Univ., 2012
- “Genetics Section Student Poster Award”, Botanical Society of America, 2013
- “Academic Challenge Research Grant”, \$2000, Dept. of Biology, Miami University, 2013

GRADUATE ASSISTANTSHIPS

- Teaching “Evolutionary Genetics” and “Biology Lab”, Indiana University, 01/2015~01/2018
- Teaching “Biotechnology” and “Evolution”, Miami University 01/2013~05/2014
- Research assistant, Herbarium of Miami University, 08/2012~12/2012
